

LAWRENCE ACADEMY Disability Disclosure

It is the intention of Lawrence Academy to support all students in a professional and appropriate manner. If you require special assistance due to a diagnosed disability (e.g., specific learning disorder, ADHD, vision or hearing impairment, health-related issues, clinical anxiety or other mental health disorders, etc.), information may need to be shared with specific faculty/staff members to ensure your well-being, academic success, and access to approved reasonable accommodations. If you choose to disclose this information, you need to:

- Review our Policy on the Documentation of Disabilities and the Granting of Accommodations (*document is located on the Learning Support web page*).
- Complete, sign, and return this form **by July 1**.
- Submit documentation of a diagnosed disability, if not already submitted (*documentation includes neuropsychological, psychological, or educational testing reports; active IEPs/504 plans; medical reports or doctor statements; etc.*).

Student Name: _____ DOB: _____ Year of Graduation: _____

Briefly describe your disability and the impact it may have on your successful participation in, or access to, Lawrence Academy programs:

Documentation enclosed with this form
(date(s) of documentation: _____)

Documentation submitted with Admission
Application or otherwise previously submitted

I hereby consent to the disclosure and sharing of information contained in the aforementioned documentation to those faculty and staff members to whom the disclosure of such information is deemed by the head of school to be reasonably necessary and helpful to my health, well-being, education, and full participation in the Lawrence Academy community. A Learning Profile is the written document used by Lawrence Academy to share such information when accommodations are necessary.

Furthermore, I understand that all testing and/or other supporting documentation must be on file at Lawrence Academy by **July 1** so reasonable accommodations can be approved before the start of school. (Often, this documentation is received during the admission process; however, if you have not sent it in, you may do so with this form.) For more information, refer to our Policy on the Documentation of Disabilities and the Granting of Accommodations, located on the Learning Support web page.

I understand that I may refuse to consent to the sharing of my information by not completing this form. While refusal to consent will not jeopardize my right to obtain accommodations or support in the future, it may affect the school's ability to provide the necessary support, thereby making it challenging for me to remain at Lawrence Academy.

This authorization will remain in effect until revoked by me, the student (or parent or guardian of student, if under 18). **Student must sign below.** (Parent(s)/guardian(s) need to also sign if the student is under 18.)

Student Signature _____ Date _____

If student is under 18: Parent/Guardian Printed Name _____

Parent/Guardian Signature _____ Date _____
